

# Vhf-Uhf DIGEST

The Official Publication of the Worldwide TV-FM DX Association

AUGUST 1993

**A SEASON OF EXTREMES!**

PREPARED FOR THE WTFDA BY TOM BRYANT, 849  
 TODD PREIS DRIVE, NASHVILLE, TN 37221; 615-  
 646-2000. A bit of catch-up material makes  
 up this edition of "Time Tunnel". Directly  
 below, the dramatic difference between an  
 off-air photo of an old KOIN-tv pattern and  
 WTFDA'er Robert J. Williams hand drawn  
 version of the same picture. Below the  
 solid line is a portion of a page that was  
 deleted from a previous column due to lack  
 of space. Next month...a 1952 cartoon will  
 fill this page; and down the line, a full  
 listing of the initial post-freeze channel  
 allocations also published back in 1952.

## World's Largest TV Picture Tubes

The Du Mont 30" Teletron, world's largest TV picture tube, is now being offered through Du Mont distributors. The giant 30BP4 presents a usable picture area of approximately 536 square inches, or over twice the area of a 20" rectangular tube. Short over-all length is achieved through the use of a 90 degree deflection angle. The over-all length is 23 9/16", or approximately 2" longer than the 20" tube.

For maximum contrast as well as rejection of ambient light, the 30BP4 employs a Du Mont gray-filter face plate. Sharp edge-to-edge focus is made possible by the exclusive Du Mont gun design. The anode is designed to operate at 20,000 volts. A single-magnet ion trap prevents ion burns.

ABOVE AND BELOW: Take a gander at these two rare ducks! Those calls haven't been seen for many years.

# SATELLITE NEWS

George W. Jensen  
4604 Anntana Avenue  
Baltimore, MD 21206-4220

Many things are in the sky off of satellite besides HBO, Showtime, MTV, Sci-Fi and others. While this is probably the major reason for owning a satellite system other types of services of unusual entertainment exist. I thought that in this months column I would mention international programming services.

Native Canadian-American programming can be seen on Anik E2 XPDR 19 with NCTV in about 2 dozen different dialects. France can be viewed with Canal 5 on XPDR 17 with Radio France International during the non-video programming periods. Of course most channels on the Anik Satellites could be considered of international interest to the viewer in the United States.

The same can be said with regard to the Morelos Satellites and their Mexican Spanish programming. Not too long ago a channel from Merida, Yucatan was uplinked which presented some news programming in the Mayan language. Unfortunately it seems to be no longer available.

Jade TV from Hong Kong uplinks a program from the west coast on Satcom C1 - 5 many evenings between 10 and 11 PM EDT. On the same satellite on XPDR 20 is the International Channel in VC2 with programs in many languages, but many produced in the US.

There is also Galavision and Univision on G1 with Spanish programming and Telemundo on G6. Spain itself can be seen in NTSC (our) color from Intelsat 601 at 27.5 W X2 (app.) and their own satellite - Hispasat at 30 West on Ku XPDR 25 (Uniden format). The Hispasat transponder' is beamed to the US east and is powerful with a 45dBa signal from 110 watt transponder.

Galaxy 3 is now home to several Asian TV services currently in the clear. There is a new Greek service soon to scramble, The Caribbean Satellite Network and the portuguese television service from Lisbon in VC2

ANA the Arabic Network of America is on Satcom 2 XPDR 1. On Spacenet 2 (unless it goes completely belly up before this is published) are the Spanish services - SUR and GEMS both of which are relayed on Intelsat 506 at 50 W in inclined orbit.

PanAmSat offers on Ku TV Japan - NHK and the evening service from Belgrade television with powerful beam to the US.

On domestic Ku birds Chinese services are found on RCA K2 and on SBS6 - Korean (TAN) and Russian television.

Lastly, but not least is SCOLA on ASCI XPDR 23 with its large menu of international news services. Many feeds from the Azores on G3 to Sudan on Intelsat 601 can be found by looking in the right place at the right time whenever that is.

## Changes and new services

Most CBS feeds are migrating to G6 in addition to G7. Two new services from Turner Broadcasting in the works are Turner Classic Movies Channel and a domestic hybrid of CNN International. That's all for now - see you in 30.

Doug Smith, editor

## NEW STATION ON THE AIR

Fort Erie, ON: CIII-TV-55 55:  
I have no details on this one.  
Logged by Bill Hepburn on  
3/27, and by Dave Nieman on  
3/10 and 5/1. Global  
affiliate, satellite of CIII-6  
Paris.

## OTHER STUFF

E-Hah!!! I finally figured  
out how to import my column logo  
directly into Word Perfect; no more  
manually cutting & pasting the  
logo, and I don't have to go buy a  
Windows word processor... This  
does also mean that I can now bring  
some graphics into my column.  
Right now, only .WPG (Word Perfect  
Graphics) and 2D AutoCAD files will  
work, or send a hand drawing & I'll  
try to copy it. With a pre-warning  
that I'm not a very good artist;  
don't expect the highest quality!

By the time you read this,  
Nashville '93 will have come &  
gone. Thanks to everyone who's  
made it such a success!

Attorney Reed Hundt has been  
chosen to succeed Jim Quello as  
chair of the FCC. Hundt has known  
both President Clinton and Vice-  
President Gore for nearly 20 years.

The Commission has agreed to  
require cable systems to carry  
home-shopping channels. A  
provision of the Cable Act had  
required them to hold hearings on  
the must-carry eligibility of these  
stations, and there had been  
considerable Congressional pressure  
to deny protection. But in the  
end, they found that failure to  
grant protection would undermine  
the entire concept of must-carry,

and would risk driving many minority-owned stations (a disproportionate number of home-shopping stations are minority-owned) out of business.

The temporary restraining order granted Viacom Cable in San Francisco, against enforcement of the Cable Act, has expired & not been renewed.

In the Atlanta area, Turner Broadcasting, owner of WTBS-17 (known simply as "TBS" in the rest of the country), has changed its mind. Turner had been demanding that local cable systems wishing to carry WTBS agree to carry his new Cartoon Network.

The Supreme Court ruled that it's OK for the FCC to prohibit broadcast stations in states that don't have lotteries from airing ads for lotteries in nearby states. The ruling had been requested by WMYK(FM) in Moyock, NC; most of the stations' listeners live in the Norfolk, VA area, where there is a lottery, and where stations can accept lottery ads. WMYK, on the other hand, cannot accept the lottery ads, as North Carolina doesn't have one.

Implementation of the regulation of cable rates has been delayed until October 1, with rates frozen until November 15. The FCC told Congress they don't have the manpower or budget to enforce the rules on the original schedule.

Another creative new method of dealing with retrans-consent has appeared. Chris-Craft/United Television's 8 stations, and (unrelated) WPWR-50 Chicago have reached agreements with cable operator TCI under which the nine stations will receive must-carry protection even if the federal courts overturn the Cable Act.

A totally new way of selling commercials has emerged in Tulsa. Commonly-owned KMOD-97.5 and KOKI-23 have signed an agreement with Keystone Chevrolet in which Keystone will pay nothing for the airtime, but will pay part of the profit on all cars sold during the ad schedule to the stations. The TV station will get 75%, the radio 25%. A recent test showed that auto sales increased approximately 100% over a weekend on which TV commercials were aired.

Qatar, in the Persian Gulf, has banned satellite dishes. Dish

interests claim the ruling was made to support the failing government cable system.

WETA-26 Washington has been taping a series of concerts at the White House, for PBS's 'In Performance at the White House'. On June 18, they had a special guest saxophonist-- President Clinton...

Not directly relevant to TV, but maybe peripherally... FM station WOAB-104.9 Ozark, Ala. has unsuccessfully petitioned the FCC to permit FM stations to use vertical polarization. Current rules require FM (and TV) stations to use horizontal polarization; they may choose to also use vertical. If they choose to do so, twice the transmitter power is needed. WOAB claimed that since most FM receiving antennas (the whips on cars & boom boxes) are vertically polarized, that the horizontally-polarized signal is wasted. The Commission didn't concur. Non-commercial FM stations may still use vertical polarization if it would protect poorly-designed TV sets tuned to channel 6 from interference.

## FORUM

Bill Draeb, Kewaunee WI:

(hey Bill, your FM local WAUN-92.7 gets out like gangbusters!)

Bill found some info on WXGZ-32 Appleton/Green Bay in the NE Wisconsin Business Review. The article claims that a former partner in WGBA-26 there purchased the assets of WXGZ in federal Bankruptcy Court. It indicates that WXGZ will be renting space on WGBA's tower for its antenna (which might indicate that WXGZ's tower has been taken down-- but their old coordinates are relatively close to WGBA's, so they may have always been on the same tower), and renting space in WGBA's transmitter building for the WXGZ transmitter and studio equipment. It indicates that approval by the FAA and FCC is pending, though I haven't seen anything come through the FCC on this one.

Dave Sinclair, Vancouver BC:

From the Globe and Mail, and the Financial Post...

Not to be outdone by the U.S., Canada is dealing with cable

reregulation too. A number of serious changes have been made:

- Previously, Canadian cable systems were guaranteed a 23% profit. (23% of gross revenue?) If increased expenses threatened that margin, rate increases would be granted. The guaranteed profit has been repealed; now, all rate increases are subject to specific approval.
- Up to \$75 of the estimated \$300 cost of installing digital-compression cable decoder boxes may be charged to subscribers, in the form of rate increases. Beginning in 1996, rates would increase about \$0.30/mo.; with the increase rising to \$1.25 in 2001.
- Further rate increases for capital expenditures will be allowed, if half of any revenue obtained that way is placed into a new fund for original Canadian programming.
- A proposal to require cable systems to reimburse over-the-air broadcasters for carriage (similar to "retransmission consent" in the U.S.) was denied on the grounds that it was a copyright issue, over which the CRTC has no jurisdiction.
- In a surprise move, the CRTC has decided to regulate the activation of DBS (satellite TV) decoders and the sale of advertising time on DBS transponders in Canada. It had been felt that U.S. DBS systems would be able to freely sell their programming north of the border, which led the cable industry to label them "deathstars". But the CRTC ruled that Canada's Broadcast Act makes the activation of a decoder or sale of advertising time "operating a broadcast service", an activity which the CRTC is allowed to regulate.
- Currently, for every two foreign (mostly, U.S.) satellite channel carried, a Canadian cable system must carry one Canadian satellite channel. The new regulations will make this a 1:1 ratio; one Canadian channel for every foreign channel.
- Subscribers must be clearly told which channels are basic and which are optional with additional charges. Cable systems were criticized for their "negative option" plan, under which subscribers received an extra-cost extended service unless they specifically opted to cancel it.

The CRTC has also acted on religious broadcasting. Previous regulations essentially banned all-religious broadcasting stations in Canada. A new policy adopted June 3 will allow totally-religious broadcast and basic cable stations, provide they "...are committed to providing balance to the views they present on issues of public concern."

Further, religious stations which are unwilling to commit to "balance" will be allowed to operate as "discretionary" (pay) cable services. These services may only be packaged with other religious pay services. (in other words, you must specifically choose & pay for religious programs in order to get "unbalanced" channels. You won't get them with your HBO subscription.) Some CRTC members objected to these "unbalanced" channels, fearing they will promote religious, cultural, and racial intolerance in Canada.

While I rarely watch religious stations, I believe most U.S.-based services, including TBN, would be considered "unbalanced" under these regulations-- in other words, I don't expect to see legal over-the-air TBNS in Canada. We may, however, see some form of over-the-air religious broadcasting up there.

Tom Bryant, Nashville TN:

Tom saw a KOUS-4 ID on KYUS-3 during an Es opening in late June. As KOUS was reported off the air early this year, Tom called an IRCA member at KTVQ-2 Billings for some answers.

He was told that KOUS-4 has indeed been dark since January. There are two rumors about its disposition: that it will be donated to a local native tribe, which would presumably operate it as an educational/ethnic station; or that it will be returned to the air as a Fox affiliate.

Tom was also told that KYUS is now a satellite of KSVI-6, the station that replaced KOUS. And, that KSVI are indeed the correct calls for channel 6. (I'd speculated that they might have changed the channel 6 calls to KOUS) His contact has no idea why a KOUS ID was aired, unless someone left an old ID slide sitting around.

Keith Short, Columbus OH:

Keith sent two items from the Columbus Dispatch; one of which was used to prepare the item on must-carry for home shopping above. The other reports on the upcoming October deadline for retransmission-consent negotiations.

By Oct. 3, cable systems and broadcasters must agree on the value of broadcast signals. If they fail, broadcast stations will disappear from cable. The smaller stations have probably already chosen must-carry (where cable is required to carry, but without paying a fee), but network affiliates are often insisting on cash payment, something cable systems often insist they won't do.

As it happens, the deadline is very close to the beginning of the World Series. If compromises aren't reached, cable viewers might well need to buy antennas to watch the Fall Classic this year. Which might mean that TCI Cable's survey showing that 59% of cable customers would cancel if they didn't get the Big 3 may, in fact, be on the conservative side...

A sidebar to the Columbus article quotes local cable and broadcast executives as believing there will not be any great upheaval in that market. However, they don't go into any detail.

Keith notes that if retransmission-consent negotiations fail in a given area, it could be good for the WTFDA-- as people are forced to put antennas back up, and inadvertently discover TV DX!

Bill Nienajadly, Clifton NJ:

From the NY Post, something on the closed-captioning regulations that went into effect on July 1. On that date, all new TV sets of 13" or larger screen size were required to have built-in closed-caption decoders.

Originally, closed-captioning was designed to allow the deaf to watch TV & understand the dialogue. But since the introduction of this service in 1980, other groups have found the value of closed-captions.

The National Captioning Institute's Debra Davis Povar told the Post that about 40% of decoders are sold to people who don't speak

English and wish to learn the language.

And Los Angeles teacher Milton Goldman uses captioning in his remedial reading classes. He plays the first few minutes of a program with the sound on-- then turns the sound off and the captions on. The students, who are now hooked on the story line, have to read the captions in order to keep up with it.

Another quoted advantage is the ability to watch in noisy environments such as taverns, or while other people are trying to sleep in the TV room. Myself, I've seriously considered buying a decoder in order to be able to watch TV & listen to the radio at the same time...

Also from New York, this time the Daily News, WNYC-31 has won the battle to keep its position on Manhattan Cable. Since the 1970s, WNYC has been on channel 3 on cable, but in February, it was shifted to its over-the-air position of 31, moving the TNT cable service (partially owned by Manhattan Cable) to channel 3.

The FCC ruled that the Cable Act allows TV stations to choose whether they will be carried on the channel they occupied in 1985 or their over-the-air channel; cable systems must honor that choice.

## LPTV WATCH

## DX ETC.

Some pretty good Es in late June and early July, with a couple of good FM openings. Have also had some good tropo, both scatter and plain ol' tropo. Here's hoping it holds out for the convention-- as I write, Nashville '93 is just over 2 weeks away...

73 Doug

# NORTHERN FM-DX

GREG CONIGLIO  
5100 GLENWOOD DRIVE  
WILLIAMSVILLE, NY 14221

For DXers in: MA, NH, VT, CT, MA, RI, NY, PA, NJ, OH, MI, IN, IL, WI, MN, IA, NE, SD, ND, MT, WY, ID, WA, OR, AK, Canada

JUNE 1993 → DEADLINE: The 5th LOG-€UTOFF: 2 months from postmark

June DX picked up quite a bit from May. There were many FM openings during June and early July, especially mid-June, although there were not many mega-openings. Numerous, smaller openings seemed to be the order of the season. Some days, however, do stand out as being quite good, with some DXers really cashing in: June 3rd, 12th, 18th, and 21st to name a few of them. There have also been some tropo reports. A few reports at great distances, but there has yet to be a major tropo opening affecting large parts of the country, and many DXers. Some 2-hop has been reported too. Let's hear from you today!...

## DAVE NIEMAN-12284 NICE ROAD-AKRON, NEW YORK 14001-9529

Es really picked up in June, with 6/3 providing an incredible 77 loggings, the most I've ever gotten from a single opening. June 3 also happened to be my birthday - yes, I can now legally see R rated movies. By the way, one added bonus on the 6/3 opening was that I got good clear ID's on tape for nearly every station! Usually I run out of blank tapes or forget to flip the "line in" switch to on, or something else to mess it up. Several of the openings were strange in that I'd hear one area for a few minutes, then another for a few minutes, then another completely different one for a few minutes, but never at the same time (see 6/8 or 6/16). Maybe one Es cloud can literally take energy away from another nearby cloud, similar to how a supercell can draw moisture away from another nearby developing t'storm. I hate to use an analogy concerning t'storms, because of the myth that t'storms cause Es, but that's the best I could think of! Total on FM is now 1026. 73

2021	<b>XHXL</b>	91.7 NL Monterrey, m, Whitney Houston music, Spanish DJ, 1st Mexico and personal best for e-skip. Thanks Greg for tip & help. You got clubs 91.7 distance record!	2672
------	-------------	---	------

Car dealership that I work for decided to hold a 100 hour tent sale right in the middle of what looked like a promising e-skip season!#\$%#@! I'm sure I missed a lot of openings? Nice to hear my 1st Mexico. Thanks Greg for the tip. I guess you got the club DX record for 91.7 since you are more east of NL than I am. 92.5 CISS, Toronto's new country station, measures 1st time out of the chute as Toronto's #3 FM station. That also makes them #3 in North America for country, with 775,000 listeners. Pretty scary stuff! Jealous other FM stations are crying foul, saying Toronto's Kiss (WKSE Niagara Falls-Buffalo) listeners got counted as CISS listeners. Sounds like sour mash (I mean grapes) to me. AM 640 CHOG with a raft of ex 680 CFTR (now all news) are calling themselves the new beat of Toronto. Well, I beg to differ since the ratings are out. Looks to me that Toronto has gone hog wild about line dancing to CISS! It's time to Boot Scoot on out of here, hee haw! See you all in Nashville!! 73 dB

I was beginning to think the E-skip season would never get underway but luckily Saturday June 12 was a big day. Nice that it happened on a weekend. 73

## STATION NEWS:

WAYM 88.7 in Lawrenceburg, Tenn. was heard mentioning having a translator on 105.3 now. WCVK 90.7 KY also mentioned something about tuning in on 91.7 in Owensboro. Big switch in Delmarva, as 99.9 Ocean City becomes WWFG, and "Froggy 99.9". The new format is country music. 95.9 in Bethany Beach, Del. picks up their old WKHI calls and top 40 format. In Texas, KQTX 105.5 has signed onto the "CD country" satellite network. In Johnstown, Pennsylvania, 96.5 is now country, "96.5 The Mountain". 101.7 in Geneva, NY becomes WFLK and country, finally giving the Finger Lakes Region of New York a country station programming to it (WPCX 106.9 Auburn goes under Syracuse). Same area, WLKA 102.3 Canandaigua has been noted as dropping jazz for satellite a/c. Some news from Eastern New York State: 97.3 is Schoharie was IDing as WHAZ, // 1330 AM in Troy. The format is Contemporary Christian music mostly. I do not know if there has been an actual call change from WMYT or not. They also mentioned being relayed in "The Adirondacks" on 94.7, so I suspect Lake Luzerne is also on their mini-network. WXLE 104.5 Mechanicsville/Albany is on the air, with a soft album rock format, and the slogan "XL 104.5". Don't confuse it with WLXQ in Fitchburg, Mass.! WAMC 90.3 Albany mentioned a new translator on 93.1 in Rensselaer/Troy, and it was noted on the air. The 89.9 that was on in Troy was noted off the air. WJAN 95.1 Sunderland, VT is on the air, with country, seemingly satellite delivered. WNGN 97.5 Hoosick Falls, NY was noted on with religion. WUUU 93.5 Remsen/Rome is using the slogan "Oldies 93.5". WKLL 94.9 Frankfort/Utica was no longer classic rock, almost seemed like a "Z-Rock" type format, on satellite or automated, "94 K-rock". Two new slogans in the Tulsa area: KRAV 96.5 is now "Mix 96.5" and KAYI 106.9 is now "K-Hits 106.9". An 88.1 translator of WXPR 91.7 is on in Wausau, Wisc. WGVF 88.7 Gary, IN has been noted off the air. WHKQ 92.1 WI is now easy listening. WIMK 93.1 Iron Mountain, Mich. is using the slogan "K-Rock". WWJR in Sheboygan, WI is now on 93.7, moving there from 97.7. KIAI 93.9 Mason City, IA is using the slogan "KIA-FM". WZMF 94.9 Danville is on now with classic rock, as part of a network with WZNK 107.9 Arcola, and WZNF 95.3 Rantoul. WOMA 96.5 Algoma, WI. is now WBDK 96.7. WFDL Lorima has been noted on 97.7, not 106.7 as in the 14th FM Atlas. KSUI 91.7 has a translator on 101.1 in Dubuque, Iowa. WBAA 101.3 W.Lafayette, IN is on the air with classical music. WPPR 102.7 Terre Haute, In. was recently noted to still be off the air. WMZK 104.1 Merrill/Wausau has a non ID of "Z104". Be careful, as this has the same slogan and format as WZEE Madison. WSLD 104.5 Whitewater, Wisc. is on the air with satellite country. 106.3 translator of KCTN 100.1 is on the air in Marquette, Iowa, serving Prairie du Chien, Wisc. right across the river. WNNO Wisconsin Dells has moved from 107.1 to 106.9. WCCN 107.5 Neillsville, Wisc. is now satellite classic rock. WJJH 96.7 Ashland is oldies. Not on the air yet: WZST 95.9 Portage, WI, or 106.9 WLJU Brookfield. WMAD 92.1 Sun Prairie-Madison has returned to the air with modern rock. WZXA 104.7 Sturtevant, Wisc. is a/c.

More Wisconsin news: WLDY in Ladysmith is now on 93.1. In LaCrosse WLXR 104.9 is a/c, and 106.3, which is not on yet, is rumored that it will be country. WRLS Hayward is now on 92.3. WEZR 107.5 Brillion is on the air with easy listening music. In other parts of the country... Benton, Ark. 107.1 is now 106.7, and country, with the slogan "Maverick": KMVK calls. Same frequency (106.7). KMXI in metro Portland, Ore. becomes KKBK, classical, and "K-Bach". Recently I received CBHA 90.5 Halifax's legal ID, and in that they mentioned a relay on 97.3 in Sheet Harbour: this is not listed. In Columbus, Nebraska, 93.5 is now KKOT, and "Coyote Country". 90.9 Norfolk, Neb. is on with religion, in stereo. AM 920 CFLS in Lévis, Quebec, is reportedly been granted a move to 102.9. WNFA 88.3 Port Huron, Mich. soon will have an 18 kW relay on 90.7 in Sandusky, Mich. KFXH 106.7 in Hugoton, Ks. was noted with country. KQXY 94.1 in Beaumont, Tex. keeps its a/c format but changes slogans to "The Point". In Baton Rouge, La. (Kentwood), 94.1 is now country, WYCT, and "Young Country" slogan. 98.9 in Lampassas, Texas has become another "Z-Rock" station. The slogan for KVST 103.7 Huntsville, TX: "Hometown country 103.7". WJNN 106.7 in N.Cape May, N.J. is on the air with CNN Headline News. 90.7 in Wichita, Ks. is still Contemporary Christian, but now is KIBN, ex: KZZD. Country station KRUE 98.3 in Boone, Iowa, is using the slogan "Rooster". XHRM 92.5 Tijuana-San Diego is modern rock with an adult slant, and "The Flash". 94.5 Boston is now WJMN, "Jammin 94.5". Big change in Indianapolis: WAJC 104.5 is no more: now they are country "The Bear" and have applied for WGRL. Modern Rock station WDRE has added another relay, 98.5 out on Westhampton, NY. Down in Morgan City, Louisiana, KFXV 96.7 is a dance/top 40 station, and they use the slogan "Y 96.7". WADU-FM 94.9 Reserve, La. (near New Orleans) is easy listening music and has the slogan "Wah Doo FM". WKGW 104.3 Utica has finally changed calls to WKFM. WSKS 97.7 Sparta, Ga., which had been relaying nearby WCHZ 95.1, is now programming modern rock on its own. In Ottawa, CJSB-540 has applied to move to 106.9 and 84 kW. Another application in Canada is for CIPC 99.1 Port-Cartier, PQ, with 7.4 kW. WSBL 97.9 in Selbyville, Delaware is on with country and a "B98" slogan. Thanks go out to many this month for providing station updates... Joe Fela, Paul Mount, Doug Smith, Matt Sittel, Dave Nieman, Bob Smolarek, Mike Hawk, dBruce Hall, Saul Chernos, George Greene, Ralph Strobel, and Tim Noonan.

0300 WVTY 96.1 PA Pittsburgh, Variety 96 ID no call, about 260 miles

1150 WFRG 96.1 NY Rome, fair with c/w and 96 Frog IDs. Long sought w/enhanced condition to this region. Now for WELF and 105.5 Little Falls (Harry, WELF is not on the air. 105.5 is, but good luck, they are really weak!-gc)

In the first 10 days of June it looked like 1993 was going to go down as the all time worst E-skip year. But as you can see things have somewhat redeemed themselves after the 10th. There have been a number of intense multi-directional skip openings up to Channel 4, but this intense stuff has not been entering the FM range at all. Highest MUF observed thus far has been about 100 Mhz. I don't know about skip, but I have a very positive feeling that we are going to have above average tropo later this summer.

Total FM varies are 653, including call changes, 38 states, five provinces. Sorry I couldn't make it to the convention, it conflicted with R.B. Hall day in Maine, an occasion when many local town bands meet in one place and perform all day, featuring the marches of R.B. Hall, who was a prolific composer of marchers and who lived all of his life in Maine. This year it was held in Auburn; next year 'twill be in Westbrook. I was there and recorded all 13 bands for use on my WOMR band music programs! Ernest

1350 CBVM 95.3 PQ Cap-aux-Meules, Radio noon call in show with 800#. I called it and was told that the program was only in Quebec and it was in English. NF was coming in on Channel 4 at the time Station was in for quite a while.

JULY 1st Es

1210 WJXR 92.1 FL Maccleny, classic country

JACKSONVILLE, FLORIDA

The phasing system works great in Es and I even had a trace of country under local WDHA (4 miles away). Now I can fearlessly DX on all channels. I'll be doing a road trip with the family out to the Mountain states at the end of July. I'll try to report on a few bandscans from obscure and bizarre places.. To those who want to reach me-don't write-call at phone number above.

COMMENTS: May was a disaster for Es and June seemed to have several FM openings, some of which I was lucky to be in Burnt River and catch. Missed Mexico FM on June 17 but had Spanish 2 unID with Houston alongside June 11. There has been some tropo, but the tower is still down at BR following renovations. We're looking at possible increased height when it (hopefully with a new antenna) goes back up. The Spanish TV was with portable rabbit ears, all FM DX in my car. All Es I've caught has been FL to TX/TN, so far. 73s.

After June 11 the season really picked up. The 12th and 21st were very nice openings, with the 21st being probably the strongest opening I have ever experienced, even if it did not last as long as some mega-openings have. Boy, that phasing really works wonders during good skip openings; before the 21st I wld you that 104.1 & 98.5 were not overridable. There have also been quite a few TV only skip openings during this period. More openings after this have occur and will appear next month. Texas and/or Florida were heard in nearly every opening this year. No FM logging at all north of Kansas City until June 30th to NS, and no U.S. opening north of there until July 6th. Quite a strange year..May was horrible, June was very good, guess July will be the tie-breaker. Of course, getting double hop to Mexico, and 775(+?) trop to Missouri within 4 hrs. has been this year's highlight!

Long E-skip into New York and double hop into southern Florida highlight this report. But where has all the tropo gone? (to the gulf coast, DB) My favorite propagation mode is ailing! The past three years we have had 800-1000+ mile tropo in June, but only a couple of measly 500 mile tropo so far in '93. E-skip seems to have been so-so, with the MUF topping 108 mHz many times, but only twice getting to 144 mHz. 73.

In general, tropo conditions have been fairly good, with plenty of local enhancements to north AL/south KY etc.. Es seems to be bypassing me, but a lot of that is not being in front of the radio at the right time, and not being able to use TV Es to tip me off. Really need to start using the 50 mHz ham rig for Es tips. Also logged one Es station while on vacation in Wisconsin, details to Greg C.

1745-1930 Band FULL of SS signals, at least 30 different freqs, most believed to be PR or Dominicans (but at least 2 were not!!) -- following are the only 4 IDed:

1850 R. Aquiba(?) 107.5 COLOMBIA, local ad w/phone for business in Cartagena!

1856 Cadena 24 94.3 DR Santiago, ID, QTH

1859 (??) 96.1 COLOMBIA, ad for business w/stores in Cartagena, Santa Marta and Baranquilla!

1910 'La Sol' 95.1 DR Santiago, local ad (Distances on the Colombians probably around 1300-1400 miles...)

Several decent Es openings have greatly added to my fledgling FM-DX log. Two of the better openings were 6/24, which brought quite a few signals from a rarely logged state here (ME) as well as my first-ever Maritimes skip in the form of CBD; and 7/6, when the band was saturated with SS signals, including another first for me -- Es from Colombia! Earlier that day, I was getting PR and VI at the same time as the Midwest, so I'd be very surprised if nobody reports any 2-hops! Also in July, had 2 odd Mexican FM loggings from Tabasco and Aguascalientes, as well as an isolated Honduran. The unusually short Es of this report is WAXM Big Stone Gap VA at only 575 miles (is there a Little Stone Gap?), which is 10 miles shorter than the best Tr of the period (105.7 Columbia NC) during some quite enjoyable Atlantic coastal Tr 6/9 thru 6/12.

Equipment: Yamaha TX-900U tuner with modified filters, Archer rabbit ears.

1859 KLAS-FM	89.3 JAMAICA	"calls" heard	

E-skip activity on FM finally picked up somewhat in June. Fortunately if I was tipped off to skip I could get away sometimes and sneak home for a little while to check things out. As you can see there were some loggings during what I could call "my lunch break" if anyone asked... Quite a variety of places heard too, treating me to a sample of what is possible here in Florida. I am surprised some of the distances I was able to hear were over 1400 miles! I can't think of a better place to hear than Rapid City/Black Hills region, a place I had visited just about 3 months before and saw the studios and towers of some of the stations I have heard! Now if the skip will become even more plentiful and present itself during the evenings when more of us can get in on it and not have to make excuses, hi. Log total is now up to 664, in just 11 months here. 73's Matt.

Danny Buntin, 1312 N. Skyline, Stillwater, OK 74075

Well, it's nice to see the skip season do something before June got over with. Now, well into July, Es is back down to dead proportions during the late afternoon and evening hours when I have the most time available to DX. 73.

MORE REPORTS CONTINUE!...

# EASTERN TV-DX

Stephen West  
26 Dougherty Blvd. G-8  
Glen Mills, PA 19342

August 1993

Deadline: August 5

E skip has returned! There has not been a huge quantity of skip but a few quality skip openings were caught by a few DXers. The best days for skip were: June 11th, 12th, 21st and 24th. The 17th and 24th were the best days for tropo but June 2nd (TN to LA) and June 9th (MD to FL) were hot days for tropo for a couple of DXers.

EEB in Virginia has decided not to modify the ICOM R-100 for video output due to a lack of requests. I am still amazed at the amount of DX (audio only) the R-100 receives when signal are not strong enough to produce a video signal on the TV. Tom Yingling and I are both receiving Toronto on channel 19 regularly at over 300 miles across the Appalachian Mountains!

William R. Hepburn 35 Lockwood Rd Brampton ON L6Y 4T7 (EDT)

Equipment: JVC HR-D630U UCR w/attic UHF dipoles & 2nd floor UHF 4-bay

Note # 1 - Wow, this was a shocker! In the middle of the night, all of a sudden there was the CBC Newfoundland & Labrador s/off w/maps of repeater sites. There are a number of channel 4s, but most are LPRts. CBNT24 runs 6.4 kW so it was most likely them. After a brief flash of tp, they were quickly off the air. Luck was with me. Taped.

Note # 2 - WINM IDed as 'WINM-TV 63/66'. ICT Network.

Note # 3 - WNPI // ID w/WNPE-16 Watertown.

73s.

I've heard I missed some good evening skip this month. I'll have to read about it in the August VUD.

**Dave Nieman - Ho Sta Geh Road - Rock City, New York**

Equipment: Harvard 13" color receiver/monitor, Channel Master 3617B VHF antenna at 15' AGL (2405' ASL) on a Radio Shack rotor, RG-6 coax feed into Winegard FT-7600 FM trap and DA-205 distribution amp. Antennacraft P-7 (7' dish) UHF antenna into a DX Tele Lab EU-4S preamp at 25' ASL (2415' ASL) on a Alliance U-110 rotor, RG-11 coax feed. New loggings are underlined. New call 'KKKK'.

[illegible]

NOTES:

- #1 Channel 2 running 3/4 modified color bars with clock and "ATV" on it. Antenna toward the northeast; under WGRZ Buffalo.
- #2 With HOME SHOPPERS CLUB
- #3 Under WGRZ Buffalo.
- #4 Running 3/4 modified color bars with clock and calls.
- #5 Over WNYB Buffalo.
- #6 Running video jukebox network "The Box".
- #7 Translator of WPCB-40 Greensburg & WKBS-47 Altoona, PA.

Skip opening on the 12th had station 4 and 5 deep on channels 2 thru 6 making IDs impossible. Tropo on the 26th wasn't a long haul opening but it brought in some new loggings with a few unIDed. Dave

**NEWS  
CHANNEL  
13  
WTTT**

Other than the short-lived but interesting tropes of May 12th, May was a pretty dull DX month, both tropes and skip wise. As you can see, June really picked up. Some of the skip openings were better than they appear here, because either I concentrated on the FM band, or the TV was so loaded with stations that I could not ID anything. These openings would be June 12th and 21st. Some other interesting DX happenings are not represented here: During the 24th tropes had 775 mi. on FM to Jefferson City, MO (KJMO 100.1) but unfortunately could not pull in any TV at that distance. During the skip on the 16th I had several double-hop stations into the Monterrey, Mexico area, at roughly 1700 mi. Again, nothing at that distance surfaced on the television set. There have been many Tr openings to Detroit, Cleveland, Toledo, etc. but they only are reported if they reach an unusually strong signal strength. I have seen skip on some days other than listed above, but have not IDed anything. Well, by the time you read this, Nashville '93 will have been history; I hope everyone who attended had a great time!

STATION NOTES: CORRECTION

In my last report I incorrectly stated that North Carolina Public Television is using the letters 'UNC-CPTV' on their colorbar pattern. The correct letters are 'UNC-TV'

COMMENTS

I was unable to DX that much in June, but there were some good Es openings including the 12th which saw locals 4 & 5 very close to being covered; but still not even a confirmed audio logging on either channel.

Shortly after installing an array at my work location, I was needed at our other shop in the mornings due to someone quitting. I had hoped to catch some early trop on this system before the locals signed on, but duty calls. Still, I have seen a lot of Es, and even some mid day VHF trop that I thought was Es. Despite being a great reception area, the poor F/B ratios of the antennas seem to void any benefit. I have seen some new translators including HSC-43 from the Norfolk area, and 38/49 x-laters for WVPT-51.

On July 2nd I also had channel 31 with the Fox network which was probably Rochester, NY. I noticed W27AJ in Dover, DE repeating channel 48 in Philly on channel 28 several times after WMDT-47 signs off. I have been getting scatter from Elmira and Binghamton, NY and WCDC-19 Adams, MA often with the Icom R100. Tom Yingling asked me to check channel 19- for audio from Toronto and I was amazed to actually receive them regularly.

Richard has seen a station with "MSTV" (Main Street Television) with black & white movies (usually in public domain) on channel 64 or 65. I think this may be the new WMBC-63 since the translator on channel 64 in NYC has Fox channel 5.

**TOM BRYANT - 849 Todd Preis Drive - Nashville, TN 37221 (CT)**

Since I haven't reported for over 6 months, a bit of catching up is in order. Only new loggings and unusual occurrences are noted in this section. Es noted 12/21 @ 2345 (muf 4) nothing ID'd. Tr 12/21 WTJR 16 IL; 12/23 WAIQ 26 AL, WMAO 23 MS, WACS 25 GA. 1/2/93..BIG opening with almost every V & U in a 250 mile radius near s/f. Es noted 0436 that morning..start of movie "Thief of Baghdad". 1/3 Ms yielded frequent Ms visitor KUSD 2 SD. 1/5 produced a duct into MS with new loggings of WMAW 14, WHLT 22, WMPN 29 and WTZH 24. First springtime Es noted 5/19. KOTA 3 SD ID'd 5/23 and 5/27. 5/29 KUSD 2 SD back in on Ms, and W22BF 22 AL (religious/Huntsville) via Tr. Ms @ 0436 the morning of 5/29 produced NBC Nightside on 2...PTA WY, NE. That's it for old business; now, in standard format, here's the current stuff.

Bringing You The Best

*ESM*

NOTES: The big tropo duct to LA on 6/2 produced my first New Orleans catches...and what a haul...not to mention all the other new LA goodies. Es has been lackluster but not as poor as last season. KOTA has been a real pest. 6/21 CITO 3 ID'd as MCTV...end of news update; WJMN 3 // WFRV 5..lots of mentions of Iron Mountain and WFRV visual ID. On 6/29 @ 2015 KLNE was seen with stylized "W" within a circle supered in the upper right quadrant. See CCI/UNID column for more. The mystery of the season popped up @ 1959 7/1 when a large KOUS was seen on channel 3. KOUS shut down in January when KSVI went on the air in Billings; and 3 is KYUS in Miles City. A call to John Johnson (IRCA) who's an engineer at KTVQ 2 may produce an answer. Thus far the best guess is that somebody grabbed an old ID slide! Finally, congrats and thanks to Stephen West for taking the ETVDX reins from Bill Nienajedly. A tip of the hat to Bill, too, for his contributions. Apologies for the length of this mess, but I did want to get current on everything. By the time you read this the Nashville Convention will be history. Thanks to everyone who attended. For those who couldn't make it and would like to see highlights of what took place, be watching for an announcement regarding availability of a videotape of the proceedings. Log total now 373. 73's and gooDXing. Tom

I would classify this June as about average or somewhat below. The first 10 days of the month featured just about no skip. My 1971 set is still going strong, I figured last season was going to be its last. The fact is though they just don't make TV's that you can easily DX on anymore. My new Zenith Sentry TV is more of a computer than a TV and has several annoying features, like muting, which is great for a TV viewer but not a hobbist.

# WESTERN TV-DX

Fred McCormack  
PO Box 65666  
St. Paul MN 55165-0666

(612) 735-6860

August 1993

Deadline: 09-09-93  
Cut-off: 06-01-93

While you wouldn't know it at my house, June appears to have been a good month for F skip. E skip openings were reported on every date in June with the exception of 22, 23, and 27. Bill Draeb noted E skip on 25 days. There were also some hot tropo dates in early June at Jeff Kruszka's and Robert Delaney's QTHs. Of course it goes without saying that if Fernando Garcia had his TV on something interesting was happening!

I never expected Western TV-DX to routinely include 1000 mile tropo and double hop E skip loggings (Mike Cherry), but that is the way it is.

Note # 1 - "Home TV Network" with an episode of Robin Hood.

Note # 2 - Channel America programming ended at 0700, then local live talk show featuring the "Road Sirs of Van Wert", a local chauffeur business. Other local ads seen. Audio was practically non-existent while video was fair to good.

Note # 3 - WGKI-33, WGKU-45, and W40AY - all with WKBD-50 news live.

Note # 4 - (I changed the call letters to W22AG at the urging of Robert Grant who has photographed that ID being broadcast. The FCC database and other sources I have list the call letters as W22AJ. I would think if W22AJ is the incorrect call it would have been corrected when Trinity was recently granted a permit for a facility change. However, sources continue to list it as W22AJ. fm)

William Draeb (continued)

- Note # 5 - Full color bars with tone - south. I suspect this is the same one seen on June 3. Any ideas?
- Note # 6 - "CKRT" on the screen in lower right corner for 15 seconds. Picture was rock solid and snow free. Are they still running 115 Watts erp?
- Note # 7 - All full power stations within 400 miles snow free and very strong.
- Note # 8 - Full color bars with rock music in English until 1300:30 when a movie entitled "Valentina" began in Spanish.
- Note # 9 - Full color bars with tone on channel 2. Gone around 1255. (This appears to be the same station I saw on June 3 and June 17).
- Note #10 - Are they on yet? (I don't believe they will be coming on. This construction permit has not appeared on the FCC database since at least May 2, 1988. fm)
- Note #11 - Logo - "CFCN" inside numeral 5 - on screen during local and national news which began at 1800. (Maybe the 5 stands for 5 o'clock? fm)
- Note #12 - Many unids on channel 2. Noted Expos vs. Pirates (only video, but suspect audio was French). On outfield fence, "SRC" along with "CBC" logos noted. Unfortunately, the signal began to fade shortly after that, hence no ID.

An interesting month (June) E skip wise. E skip was seen on 25 of the 30 days. One thing was missing though; the signals on most days weren't real intense, as they were in past years.

The color bars seen at midday on three occasions is a mystery on channel 2. I would like to believe it was something from outside the US (Cuba, perhaps), but I think that would be too good to be true. My second guess is that it probably is a PBS station (maybe WDIQ) which comes on late. I don't know what WDIQ's schedule is though.

Channel 69 in Iron Mountain which carries WLUC-6 is back on and back to normal signal strength, equal to the others now. Must have had technical problems with reduced power before.

That's all for now. 73, Bill

(Bill, the only channel 31 I know of in Wisconsin is W31BA in Minocqua. Channel 39 TBN on a Toledo heading would likely be W39AQ at Marion, Ohio. Also, there is a channel 32 TBN in Ohio at Lexington. The call is W32AR. fm)

Mike Cherry, Box 631, Ganges BC V0S-1E0 (604-537-5201)

PDT

Equipment:

Kenwood RZ-1 receiver, channel 6 crystal trap. Hitachi 5" black & white monitor, Sony Beta Hi-Fi MTS VCR, Archer 15-578 variable signal attenuator. Antennas: Lindsay CC-30 22 element log-periodic @ 25' agl. Homebrew 6 element 6 meters (50 MHz) yagi (1.5 w.l.) @ 40' agl with Hy-Gain CD-II rotor. Belden 9913 co-ax on both. Dalco EID-35 TV preamplifier.

					(At work)		

At my new QTH, the TV antenna went up April 17 in time for the Lyrids. The 6 meter yagi went up on April 30. I'm disappointed with the results of the TV antenna -

Mike Cherry (continued) signals from KOMO-4, KING-5 and CBUT-2 are way too strong so I may lower the log periodic onto an 8' mast mounted at ground level to reduce ground wave and tropo effects. My FM antenna probably won't be up until after E skip season, but I'm impressed with tropo results using built-in whips on FM.

DX-wise, I'd say this is an average E skip season for amount of openings but has been above average for amount of multi-hop! May 31 produced strong signals on 50 MHz and TV giving me a new TV state! June 9 produced an excellent 6 meter opening to the entire southeast and Bahamas, also a beacon from Venezuela (YV4AB) was heard by me at 1640-1645. The whole time there were multiple pictures on channel 3 with no sign of skip into any shorter distances, so I'm sure this was multi-hop. I suspect many times when initial CCI shows up on DXers sets - this is LONG-HAUL stuff!! June 11 there was a 4 minute opening from here to Maine on 6m at approximately 1730. June 13 during the ARRL VHF contest, I couldn't pay attention to the TV, but channel 3 was open during the times indicated and probably the areas indicated. On 50 MHz, we had double hop E skip to Indiana and Virginia between 1750-1803 - I noticed faint cci on TV. June 16 produced an incredible opening to the southeast U.S. again!!!! - lotsa faint pictures on 3 and 4. June 17 had an unusual and short opening around local midnight to the east. June 17 from 1734-1755 had a 6m opening to Vermont - small footprints at both ends!!!

The TV loggings noted while I was away from home were made by local VHF DXer Rudy Stam, VE7FEI, who lives about 1/2 mile from here. I include them to give other DXers a more accurate picture of what occurs locally. I haven't noted any E skip yet from Alaska, Russia, Hawaii, Japan or the Pacific - but I've saved the most interesting news for last: Japanese VHF DXer Tadayuki "Tad" Kasagi saw KATU-2 Portland, Oregon from 0722-0735 UTC (0022-0053 PDT) early morning June 17!!! He phoned yesterday; also reported a more or less average E skip season from his QTH with most of his openings towards the Peoples Republic of China, Philippines and Guam on 6m and/or television.

Hope everyone gets lotsa DX this summer - try watching the cci a little closer - YOU may have really long-haul E skip and not know it! 73s, Mike VE7SKA

Fernando Garcia, Apartado 30, Suc. B, Cd. Guadalupe, N.L., 67181, Mexico

I am not reporting any DX under 500 miles except for first time stations. June 24, no 500+ mile tropo for two weeks mainly because every day showers and thunderstorms in the Gulf and Monterrey. That's a lot of rain for this city because it's considered as a semidesertic area, we have not got much rain in June for the past twenty years.

Jeff Kruszka, 7706-M N Jefferson Place Cir, Baton Rouge LA 70809 (504-923-0196) CDT

#### Equipment:

1992 Zenith "Sentry 2". 13" color TV (Model #S1318S). UHF: RDX Labs UA-900 preamp, Channel Master 4228A 8-bay @30 ft. VHF: Rabbit ears + quad loops for chs. 3 and 5. Mitsubishi HS-U31 VCR.

Note # 1 - Thanks to Fernando Garcia for helping me ID this one! Program "En Confianza" matched TV listing which he sent me from Monterrey. My furthest tropo catch (identified) to date.

Note # 2 - Running CMN telethon, verified by calling local pledge number on screen!

Most of the E-skip this month was weak and brief, except for the evening of the 18th which was pretty good.

Robert Delaney, RR#4 Box 385, Mt. Vernon IL 62864 (KA9UVY) (618-242-7256)

CDT

Equipment:

1990 Zenith 13" color SS 1311W, Emerson 885 VCR. UHF ant: Archer U120 @ 87' agl, UA 900 preamp, RG-11 coax. VHF ant: rotatable vertical dipole @ 25' agl for E skip, CM 3608 @ 55' agl. Camera: Pentax K 1000 with Kodak Gold Plus 200.

CDT

Equipment:

VHF: Radio Shack VHF/UHF (model unknown). Channel Master 6' UHF parabolic with Radio Shack preamplifier.

It's been some time since I sent in a report. Most of the excuse is the lack of DX early in the year although I did see some occasional skip. Things have picked up a little so here's the results:

Most of the E skip loggings were in the 1100-1700 and 2000-2230 time periods. Lightning hit my tower again. It also happened in August 1991. Rotors, amps, etc. were damaged. A lightning rod was installed atop the tower and I used an 8' ground rod. An article in a ham magazine stated this will decrease the chance of a lightning strike by 80%!! My VHF system is in operation again.

# Calling All WTFDAer-Hams On Packet!

I'm trying to get up a list of WTFDAers that are up on packet.  
My packet address is:

With the arrival of skip season the number of unIDs increases as well, and thus here are a bunch of unIDs from the first half of the skip season along with some other unIDs from earlier than this summer. Remember using my e-mail address will get you a quick reply, if you have access to electronic mail: sittel@masig.ocean.fsu.edu. I usually can reply in less than a week, very often I can reply in the same day! Now let's get into the unIDs I have on hand:

dBruce Hall, 5 Stirton Ave., Brantford, ON N3T 1E2 CANADA

1992 FM:

- Fri Dec 4 MS 94.3 0747 EST -- Male traffic reporter in helicopter, "The Park and Harborview about mile and half on you..." SW. (I am guessing you mean antenna was pointed southwest?-mcs)
- Sat Dec 12 MS 94.3 0851 EST -- Two males with strong Southern accents. 1st male: "Back streets, let me tell you where's the best place to be, born and raised in this town...in front of (Cannons?) I knew you were going to say that..." 2nd male: "Go right on Main Street right here, any place in the first 2 of 3 blocks of Main Street location between Church and Wilson (or Wiltson) are going to be prime locations and this is great for you Johnny". Sounds like live remote of parade. SSW.
- Sat Dec 12 MS 94.3 0859 EST -- male DJ "...for the brownie troop ah, the balnket and coat drive that is going on, drop off your donations today at Harts (Hearts) K-mart." SSW.
- Mon Dec 14 MS 94.3 0753 EST -- Male DJ "...the 7:40 edition of Q94 news, sports and weather...Q94 playing the best..." Sounded like the beginning of a country song or light rock station. (CHIQ Winnipeg?? If they said 7:40 is that implying the end of a 15-minute news program or a promo for one coming up in 45 minutes I wonder? If a promo then a CST station would fit.-mcs) SSW.
- Mon Dec 14 MS 94.3 0757 EST -- A produced radio promo "the universe WSSE (sounded like those calls)...all new live" SSW.
- Mon Dec 14 MS 94.3 0758 EST -- Male DJ "...has been described by a Ross County prosecutor Richard Warren as a drug kingpin..." SSW. (The only state in the country with a Ross County in it is Ohio. The county seat, Chillicothe has a 94.3 in it also, WFCB. Sounds like you had them.-mcs)
- Mon Dec 14 MS 94.3 0838 EST -- Male DJ, after "Black Velvet" by Alannah Myles: "Magic 94, Augusta...festival...90's..." SSW.

Mike Hawk, N00SY, 10212 P St., Omaha NE 68127-2130

1993 FM:

- Thu Jun 3 Es 104.3 1025 CDT -- "Sunny 104.3". Probably West Palm Beach. (Yes.-mcs)
- Thu Jun 3 Es 88.9 1058 CDT -- ID as "Concert 89". Classical music heard. PTA: FL. (John Combs says this is WQCS, Fort Pierce, FL.-mcs)
- Thu Jun 3 Es 104.1 1114 CDT -- "Radio Free DC" syndicated talk show. PTA: south GA or FL. (John Combs checked and said that this is run on 104.1 Cocoa Beach FL at the time you heard it.-mcs)
- Thu Jun 3 Es 102.9 1128 CDT -- "Coast 102.9". Also a mention of a contest sending the winner to Delray Beach. (Definitely WIVY in Jacksonville FL.-mcs)
- Thu Jun 3 Es 92.1 1146 CDT -- ID as "Oldies 92". PTA: south AL, south GA, or FL.
- Thu Jun 3 Es 94.3 1213 CDT -- ID sounded like WGOR. Slogan was "Oldies 94". PTA: GA, SC, north FL, south AL.
- Thu Jun 3 Es 97.7 1217 CDT -- ID as "97.7 FM the Rock and Roll Station", then a promo for Subway (sandwiches)." (WTBB Bonifay is "Pirate Radio" and WRRX Micanopy is "97X" here in Florida. But both are album rock.-mcs)
- Thu Jun 3 Es 100.5 1234 CDT -- ID as "Sunny 100". (Charleston SC has now moved to that frequency and used that slogan before.-mcs)
- Tue Jun 8 Es 95.7 2028 CDT -- Caught end of ID; likely Monterrey - last I heard they were XHRK, but I tuned in to hear "...AM en 95.7 KHz..." Maybe a call change?
- Tue Jun 8 Es 99.5 2041 CDT -- Tuned in to hear ad: "...another great Tejano night at South Dallas...playing your favorite Tejano mixes all

CI (unIDentified DX), August 1993 Hawk, cont. page 2

night long..." I think South Dallas was a name of a club, not the city.

Fri Jun 9 Es 93.7 1857 CDT -- SS (occasional brief EE phrases) - ad for "Flamenco Party, la Maxima Fiesta" in the hotel "Casa Grande". Two mentions of Chihuahua in ads. ID "So Hot, it's Cool", then something unintelligible in SS. Telephone numbers indicate Mexico, but could be anywhere in North Mexico, because I was hearing TX and CA at the same time.

Fri Jun 9 Es 96.7 1907 CDT -- ID sounded like XHNRC. Location??

Fri Jun 9 Es 92.7 1959 CDT -- ID sounded like "K-Fine", "K-Fi", or "K-Fly". Probably southeast CA, NV, AZ, or UT.

Fri Jun 9 Es 97.9 2012 CDT -- ID as "Mix 97.9". Played songs by the Police and Kenny Loggins. PTA: TX. (It is KODM, Odessa TX; I heard them via skip recently and they used that slogan. -mcs)

Fri Jun 9 Es 105.5 2015 CDT -- SS. Mentions of the town of Allende, so PTA is in/near Coahuila.

Fri Jun 9 Es 103.1 2038 CDT -- ID as "Super 103". PTA: NM/TX.

Fri Jun 9 Es 92.1 2047 CDT -- ID as "CD Country". PTA: TX/NM.

Mike also mentions: "Also had unID SS on 96.5 and 106.1. I didn't have any identifiable material, but it made me wonder if there are stations in Monterrey. This would fit in with Monterrey's .8 MHz spacing scheme. None are listed in the FM Atlas, however. (Perhaps Fernando Garcia can help with those. Information on Mexican FM we need!!-mcs)

Kurt Richardson, Syracuse NY (received via e-mail)

1993 FM:

Fri Jun 11 Es 94.1 1156 EDT -- "Y-94 FM", country. PTA: TX, OK.

Sat Jun 12 Es 92.3 1202 EDT -- Calls KIJC. PTA: TX, MS, LA.

Sat Jun 12 Es 92.7 1437 EDT -- Trinity County mention. (That is in east Texas, and is close to Crockett, in fact Trinity County borders the county Crockett is in, and Crockett is home to KIVY.-mcs)

Sat Jun 12 Es 97.5 1449 EDT -- "97.5 The Lama". PTA: TX, OK, AR.

Sat Jun 12 Es 101.5 1501 EDT -- "The Wolf". PTA: TX, OK, AR.

Sat Jun 12 Es 94.9 1505 EDT -- "Sunny 95 FM". (KSMN, Arlington TX. -mcs)

Sat Jun 12 Es 94.1 1528 EDT -- Automated. "94.1 Oldies 94". PTA: TX, OK.

Doug Smith, 14 Brookside Court, Nashville, TN 37209-4503

1993 FM:

Thu Jul 1 Es 93.9 ??? CDT -- "Renegade Radio Q-94", album rock format (Doug was receiving KS, NE, SD, CO, WY in this opening-mcs)

Thu Jul 1 Es 96.9 ??? CDT -- Oldies over/under semi-local WRSA

Thu Jul 1 Es 97.5 ??? CDT -- "Q Country", Paul Harvey promo. (Definitely KQSK Chadron NE, their slogan "Double Q Country" refers to the // with KAAQ-105.9 NE Alliance. While visiting that area in March I even heard them run Paul Harvey!-mcs)

Saul Chernos, 57 Berkeley St., Toronto ON M5A 2W5 CANADA

Fri Jun 11 Es 96.1 1202 EDT -- "50,000 watt powerhouse K96", country. (Childress TX?-mcs)

Fri Jun 11 Es 95.5 1249 EDT -- "K95", Southwestern Bell. PTA: TX/OK. (Tulsa OK?-mcs)

Sat Jun 12 Es 99.1 1425 EDT -- "K99". PTA: FL/LA/MS. (WKNN Pascagoula MS fits.-mcs)

Sat Jun 12 Es 96.1 1444 EDT -- Mentioned Enterprise. "Kix 96", country. PTA: LA.

Sat Jun 12 Es 88.1 1525 EDT -- French. PTA: LA.

Sat Jun 12 Es 106.7 1537 EDT -- Benbrook, Texas Grill ad. PTA: TX. (Granbury TX?-mcs)

Sun Jun 13 tr 100.3 1214 EDT -- Very weak tone, light tropo.

Mon Jun 14 tr 88.3 1300 EDT -- under WCOU with unidentified language.

Fri Jun 18 Es 88.9 2000 EDT -- Florida Public Radio Network. PTA: FL. (That is my local! WFSU Tallahassee.-mcs)

Mon Jun 21 Es 101.9 1848 EDT -- mentioned Wade County. (I see no Wade County in any U.S. state...could it have been something similar?-mcs)

Mon Jun 21 Es 97.5 1853 EDT -- EZ97 ad, mentioned Jackson and WBBJ-7. (Greg Coniglio (all 1993 FM above) says Doug Smith found out it is WWEZ Trenton TN.-mcs)

Ernie Cooper, 5 Anthony St., Provincetown, MA 02657-1703

1993 FM:

Mon Jun 28 tr 103.1 0227 EDT -- "B103", r. (Greg Coniglio thinks it may be Long Isl.-mcs)

Mike Hawk, 10212 P St., Omaha NE 68127-2130 (forwarded from Greg Coniglio)

1993 FM:

Wed Jun 9 Es 96.7 1907 EDT -- XHNRC calls heard. PTA: AZ/CA/NV.

Fri Jun 11 Es 88.1 1129 EDT -- WKJL calls, mention of // WRIJ-106.9 Masontown, PA. (Mike, the calls for 96.7 Valdosta GA are WYZK.-mcs)

Doug Smith, 14 Brookside Court, Nashville TN 37209-4503

Wed Jun 16 tr 95.9 2135 EDT -- "Gold 96". PTA: WI/IL/MI.

(Greg Coniglio forwarded this report also. I think Doug heard this in Wisconsin recently, and not from Nashville?)

Harry Hayes, 9 Henry St., Wilkes-Barre PA 18702

Fri Jun 25 Es 98.1 ??? EDT -- Clear IDof WRLE?

John F. Combs N4SFS, PO Box 721027, Orlando FL 32872

1993 FM:

Sat Jun 12 Es 93.5 1620 EDT -- Ad for Bumble Bee Hollow Golf Center(!) PTA: From MI east to VT. I've already checked directory assistance for all 93.5 stations in VT, NY, and PA with negative results. Of course, the golf center could be in an outlying town that wouldn't have turned up when checking the actual city of license.

Wed Jun 16 Es 94.7 2046 EDT -- "Solid Rock KQ-95". PTA: MO, KS, IA and area.

Wed Jun 16 Es 93.5 2126 EDT -- Ad for a business at "Brookdale Plaza in Brookdale". Cannot locate any Brookdale in atlases. Probably a neighborhood within a larger city. PTA: same as above.

Fri Jun 18 Es 95.9 1921 EDT -- Partial ID of "??WS AM and FM", then community bulletin board mentioned the "Monticello Post Office". Perhaps KQNS Lindsborg KS, but I have no current AM lists handy to check for a sister station, and can't locate a "Monticello" in the area. PTA: KS, MO, NE, MN, with a secondary cloud also bringing in NY and PA.

Fri Jun 18 Es 100.9 2026 EDT -- Brewers BB. PTA: WI. WRCO?

Fri Jun 18 Es 99.7 2046 EDT -- Brewers BB + WI lottery ads. PTA: WI. WHET?

Thu Jun 24 Es 97.1 1915 EDT -- An m station (Murray, Alpert, Sinatra) with rather low-key, laid-back DJ. PSA discussed the annual "Frankfort (-ford?) and district flea market" and said "for information, call Diane at 398-6192." PTA: New England, ON, PQ, Maritimes. (Are not districts a Canadian division mostly? Could Belleville ON-CIGL-be them?) Thought perhaps a ME or VT station w/ new format, and tried that phone # in the respective area codes, but no joy. (Try Ontario, John...ask for Diane and see what happens! Maybe she knows if it is -fort or -ford!!-mcs)

Thu Jun 24 Es 99.9 2004 EDT -- Sounded like "The View 99.9 FM". PTA: same as above.

Thu Jun 24 Es 99.7 2019 EDT -- Bruce Williams' talk show on TalkNet. PTA: same as above

Thu Jun 24 Es 99.7 2057 EDT -- End "Focus on the Family". Possibly the new one in Palmyra NY?

Fri Jul 2 Es 88.9 1653 EDT -- Station twice used non-ID of "Red River Radio". Could be KETR Commerce, but they're not very near the Red River! PTA: TX, OK. (I couldn't find anything on the Red River up on the ND-MN border either.-mcs)

Sat Jul 3 Es 99.7 1639 EDT -- Ad for the Ross Park Mall. PTA: WI, MI, OH.

Sat Jul 3 Es 97.7 1655 EDT -- "The best tunes in Michigan are on 97-7". 3 possible. PTA: MI.

Sat Jul 3 Es 101.3 1702 EDT -- Brief cloud to DR brings in this station ID'ing as Santo Domingo. Calls were being given just as I tuned in, and I wasn't quick enough to get them. Anyone have calls or slogan on this one? There is supposedly a 101.5 in Santo Domingo, so this is very likely a repeater. PTA: DR.

Sat Jul 3 Es 88.9 1918 EDT -- Program about women's needs and concerns w/YL host. "Si eres mujer, llamonos" ("If you're a woman, call us"). The name of the program, or perhaps the group sponsoring it, is "Mujeres en Accion por Mexico" ("Women in Action for Mexico"). Either these stations are in Tamaulipas, or perhaps the show simply originates from there, since there are frequent mentions of that estado. I find no stations on these frequencies listed in that area. Also heard 6/29 @ 1202 EDT. PTA: Mexico (especially TA).

Mon Jul 5 Es 95.1 1714 EDT -- Calls of WIYL heard. PTA: IN and surrounding area.

Mon Jul 5 Es 105.7 1832 EDT -- "Kicks Country 105.7". PTA: IA, WI, MO and area.

Mon Jul 5 Es 95.9 1853 EDT -- Partial calls of KCL? heard. Des Moines ad. PTA: IA.

Mon Jul 5 Es 105.5 1900 EDT -- "KJ Country". PTA: IL, MO, IA and area.

Tue Jul 6 Es 103.9 1627 EDT -- Manhattan KS ad, then weather for several cities including Junction City. No 103.9 stations in that area. Possibly a frequency change? Like maybe KQLA Ogden moved from 103.5? PTA: KS.

Thanks, John, for typing up your report in the form used in this column. It sure helps me type the column up faster. To all who do report in this format, thank you! If you do not, please help by sending in reports in the format above. Also don't forget to include your time zone so those in other time zones can convert accordingly. THANKS!!!

att Sittel, 603 Fulton Rd., Apt. B-24, Tallahassee FL 32312-2214

992 FM:

on Aug 31 tr 99.1 0114 EDT -- "Z99.1", AC music I believe. PTA: TX, LA.

993 FM:

on Mar 8 tr 90.5 0600 EST -- "WLMS Lecanto" ID heard. PTA: FL.

ue Jun 8 tr 89.3 0830 EDT -- "WMAH (90.3) Biloxi" ID heard at two different times. I know in Hattiesburg they recently added a translator of WMAH-TV on ch47, could they have added a translator on FM also?? PTA: south MS.

ue Jun 8 tr 93.5 0905 EDT -- "The Latest Christian Music-93.5". PTA: MS/LA.

at Jun 12 Es 92.1 2134 EDT -- Twins baseball. PTA: MN/IA.

ri Jun 18 Es 93.1 1934 EDT -- "B 93.1". Very hard to say since I had quite a few different stations in around this time. PTA: MA, could be MD, also could be IA/MN as well, and MO too!

ri Jun 18 Es 102.5 1945 EDT -- Something like "Soft Lite 102.5". PTA: same as above.

ri Jun 18 Es 99.3 1951 EDT -- "Q 99", rock. PTA: MN/IA, less of the MA/MD by then.

ri Jun 18 Es 101.1 2017 EDT -- "K 101", mention of a country music concert in Detroit Lakes, MN, and from the sound of the ad I am not sure the ad wasn't meant to be run in a large region of the upper Midwest. PTA: MN.

ri Jun 18 Es 94.7 2023 EDT -- "94 Dot 7 the Country Giant". PTA: IA/MO.

on Jun 21 Es 93.1 1747 EDT -- Ad for "Mike's Potato Chips". Suspect WKRT. PTA: IL/IN.

hu Jun 24 Es 96.7 2033 EDT -- Ad for "Morton's Wiley Family Birthing Center." I may have the wrong frequency written down; my notes were all mixed up. Can anyone confirm a location?? PTA: NY/LI.

hu Jun 24 Es 97.9 2036 EDT -- Satellite country, "B 98 FM". PTA: New England, NY, NJ.

hu Jun 24 Es 97.1 2057 EDT -- "Y 97". PTA: NJ/PA.

hu Jun 17 Es 101.9 2034 EDT -- Wolfman Jack, satellite oldies format. PTA: west TX/NM.

ue Jun 29 Es 97.1 1245 EDT -- "Estereo Recuerdo", SS. PTA: NL/Tamaulipas/Chihuahua.

ue Jun 29 Es 97.9 1255 EDT -- Poor audio, "South Texas" ads, mentions of "Eisenhower Road", "...between Austin Highway and I-35", and also "San Antonio's...". PTA: TX.

ue Jun 29 MS 107.5 1310 EDT -- "Rock And Roll Diner", snuck in with E-skip!!

hu Jul 1 Es 93.1 1847 EDT -- "Lite 93". PTA: KS/west NE/west SD.

hu Jul 1 Es 98.3 1855 EDT -- Ad discussing place to buy hunting meat. Was hoping this was Wyoming!! PTA: west NE/west SD/east WY.

on Jul 5 Es 91.7 2100 EDT -- "Sonido Noventa", SS. Suspect Monterrey NL. PTA: MX.

on Jul 5 Es 100.9 2106 EDT -- "Ciudad Victoria" mention. New station?? PTA: Tamaulipas.

on Jul 5 Es 92.3 2033 EDT -- "Radio Tamaulipas" ID. Where in Tamaulipas though?

on Jul 5 Es 93.5 1932 EDT -- "93.5 FM". PTA: TX.

on Jul 5 Es 92.7 2117 EDT -- "Tejano 93". PTA: south TX.

ue Jul 6 Es 91.1 1835 EDT -- "Dominican Republic" mention, new station?? PTA: DR.

ue Jul 6 Es 97.1 1845 EDT -- "St.Elizabeth" and "Jamaica" mentions. New station??

ue Jul 6 Es 106.5 1854 EDT -- Jamaican news, this and above in with other positively ID'ed Jamaican stations.

ue Jul 6 Es 105.1 1856 EDT -- Jamaican news, could not // any of these 3 with JBC, Fame-FM, or KLAS-FM. New stations all three I assume.

ue Jul 6 Es 91.3 1908 EDT -- English music on. This is likely the same station I had at 1754 EDT running French music and had French man although the language was not France or Quebec sounding. I highly suspect a Haiti FM. PTA: Jamaica, DR, Haiti.

at Jul 10 Es 94.3 1013 EDT -- "KZCD CD Country". PTA: west OK/TX panhandle.

reg Coniglio, 5100 Glenwood Dr., Williamsville NY 14221

992 FM:

on Dec 21 Es 99.1 late FST -- Country, "Channel 99.1". PTA: Midwest, Dakotas.

993 FM: Jul.8 91.1 ???? EDT -- "Meridian's T91", urban on 104.9, Krytal ad. York AL?

on Jun 21 Es 98.9 ???? EDT -- Ad for Dundee's, mentioned Route 929. PTA: TX/OK.

on Jun 21 Es 92.3 ???? EDT -- Cheap sounding audio, MONO, country music. PTA: TX/OK.

ue Jul 6 Es 92.1 1540 EDT -- Ad for "Kansaland", also had an ad for Cuba's 125th anniversary (a city, not the country), highly suspect KREP-KS. I am not sure if these two were the same station or not. PTA: NE/KS.

ue Jul 6 Es 92.5 1650 EDT -- In car on way to work, country over CISS, sounded like "KG92". PTA: Dakotas/IT/MN/MB.

993 TV:

on Jul 5 Es ch 5 2000 EDT -- CBC's "Prime Time News". PTA: NF, but this was only one hour ahead of CBC Toronto's air time. Could this have been CBIT-5 Sydney NS, or does this show air at 9:30 local time in NF? (Old TV Guide from '88: on CBIT@east-m)

END IN YOUR unIDs!!

Note # 1 - With CW id. No up to date lists and no idea where this one is. Any help appreciated - This one of course not QSLd- HI! Most unusual to hear a CW id on UHF 13. Maybe a spur??

Only 2nd time Hampton Roads & Cape Hatteras heard. Usually don't get the south here. Also had a ship calling Ambrose Pilot NY on 5/1 but will hold off on this one till I get it QSLd. My MYSTERY station - HI!! When QSLd no doubt my most distant UHF ship. Not unusual to hear Cape May & Lewes but they are good barometers of VHF band conditions. Very good openings this year! so far!!!

(Hank, could the new USCG Group in Philadelphia be a reorganized USCG Base Gloucester City NJ? if so, its call would likely be NMK-2. The xmtr may or may not be in NJ. WH)

Thanks for the reports guys!

Next time..tips for DXing the Aviation Band..73s, WH.

phone 410-282-5849

ND KPFX 107.9 Fargo, P. O. Box 9919, zip 58106. In an LMA (?) with KLTA 105.1 Breckenridge, MN. Tim Richards, Program Director, wrote back after I send a follow-up report. When on the air Jan. 4th, & transmitter is at Wolverton, MN, about 25km south of Fargo. "Indeed, your listener report from Duluth, MN is our farthest report. You beat out the previous report from Pembina, ND by quite a bit." (Elving)  
IL WLLT 107.7 Polo, % 260 State Route 2, Dixon, IL zip 61021. Andrew S. Jackson, Program Director sends sweet, specific letter, saying at 350 miles "that is the farthest distance I have heard out station has reached." Are on air from 5:30am to 11:00pm and Sundays signing on at 6:30am. (Elving)  
WI WISM 98.1 Altoona, % 1819 Mitchell Ave., Eau Claire, WI 54701. Peter A. Boehmke, Co-Owner, sent specific letter nine months later, apologizing for delay, & sending bumper stickers, sweat shirt, & promotional items. They are on 24 hours daily in fm stereo and will be 25,000 watts soon. (Elving)  
DE WDNO 95.3 Laurel, 102 Central Ave, zip 19956. Send back my prepared qsl card with an unreadable name as signer. (Holbrook)  
NJ 91.1 WWNJ Trenton, P. O. Box B, zip 08690. Letter after follow-up report back from Walt S. Gradycki, CE for Mercer Comm. College Public Radio. (Holbrook)  
NJ WVLT 92.1 Vineland, 638 Landis Ave., zip 08380. Letter from Joe Patti, Operations Mgr. also send bumper stickers. (Holbrook)  
WA KOP303 35.480mhz. Langley, Whidbey Telephone Co paging station, with automatic morse code id heard. A letter requesting verification was send in 1992 Sept with no response, and second letter was send in 1992 Dec. I called the Whidbey Telephone Co. In 1993 Feb, and was routed to Mr. Leslie Hagstrom. He works in the radio maintenance group. I told him I heard KOP303 & that I would like a verification (he's an ex-ham). A third letter was send 2-11-93 and a verification letter was received in 22 days signed by Leslie L. Hagstrom, COE Supervisor. They use a GE Progress Line transmitter & an omni antenna at 317 feet, erp is 419 watts. This qsl is of special interest because of the short skip by e-skip heard in southern Calif. (Webb) {lots of trouble to get that use hey?, ed.}  
NE KGJ681 47.200mhz. Sidney, Dept. of Roads. Letter from Gary Holly, Highway Maintenance Superintendent in 11 days. They use a GE Master II transmitter, antenna up 300 feet & power of 100 watts. (Webb)  
CA KRTH 101.1 Los Angeles, no address given. This was for the sea sub carrier of 57.8khz. of high speed data. A letter was send to Robert Kanner, in the letter I stated that I am a friend of Greg Hardison (a producer at KABC-AM & Metro Traffic. 9 days later letter of qsl from Bob Kanner. He don't use his title of CE. The letter states that data is transmitted on 57.600khz and 70.892khz, and the data is shift keyed between these 2 sub carrier freq.'s. (Webb)  
OH KVB392 35.180mhz. Gallipolis, Southeastern Equipment Co. Letter from James R. Allen, Manager. They use an Motorola transmitter and antenna at 120 feet & 100 watts. (Webb)  
LA KGZ402 30.680mhz. Jonesboro, Burns Forest Products, Inc. letter from Joe D. Burns, President. Send copy of license, antenna at 125 feet & 100 watts. (Webb)
